## THE REBUS

The Rebus Puzzles are a mind titillating, amusing invention. They are usually images, often made of letters, words, images or a combination of them to make a cryptic representation of a hidden message. Here are a few examples:

HIJKLMNO

These 8 letters probably seem to mean nothing at first glance, but think differently! We have the letters H to the letter O, so H to O or H2O. This is a Rebus representation of H2O or water.

Here is another example:

    Yourself  
    Yourself  
C  Yourself  
    Yourself

We have the letter C and 4 times the word 'Yourself'. So the answer is C 4 Yourself or 'see for yourself'.

And here is our last example:

    R  
    O  
ROADS  
    D  
    S

We have the words 'Roads' crossing each other which would

translate as 'Crossroads'.

I hope this will have  
stirred some interest in  
you discovering more of  
the world of Rebus  
Puzzles!
